

I am a Christian and have listened to K-LOVE(99.1)and KYCC (90.1) for years. I wake up to the radio and love hearing songs uplifting and praising what God has done. I listen to them in my car while commuting to work, while working in my garden or doing housework. Both of these stations use translators to broadcast and it would be a big shame and a disappointment to many, many people to have other stations take priority over them with new LPFM broadcasts of other type of programming which is not so uplifting nor family orientated. There are enough "mainstream" type stations in the area already. Please preserve the service that these station provide on their translators.
